SKILLS

Java, Python, SQL, JavaScript, Spring Boot, FastAPI, React, Node.js, Django, TensorFlow, JUnit, PostgreSQL, Redis, Neo4j, ELK, Docker, Kubernetes, AWS, Microsoft Azure, Git, pandas, NumPy, Matplotlib, Pydantic

EXPERIENCE

Software Developer · National Payments Corporation of India (NPCI) (2024-10 - present)

- Building an internal automated monitoring and compliance agent for UPI Number features (470Mn Active Users in India) generates insights and priority-ranked alerts across departments, reducing manual triage for the product team.
- Developed a consumer engagement portal to grow RuPay credit card adoption on UPI, serving merchant and customer flows ? Java, Spring Boot, React, PostgreSQL.
- Built RuPay Scan and Score, a transaction-analysis and loyalty platform integrated with WhatsApp (Meta) ? FastAPI, Python, Redis, PostgreSQL, Kubernetes, Docker, ELK for log management.

Associate Software Developer · Tech Mahindra (2023-03 - 2023-09)

- Built and maintained enterprise services on Java Spring; worked with SAP ABAP on S/4HANA.

Developer (Research Project) · AMTDC, IIT Madras (Ministry of Heavy Industries, Govt. of India) (2021-12 - 2022-07)

- Developed a generic API layer in Django integrated with a Neo4j graph database, using NLP to generate Cypher queries from natural language input.

EDUCATION

B.Tech, Computer Science ? CGPA 8.59 - Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Chennai (2019?2023)

Higher Secondary (Physics, Chemistry, Math) ? 7.60 - Sri Ramakrishna Sarada Pith, Burdwan, WB (2017?2019)
